This is a condition that lasts for a very long time that shows up with areas of blackheads, whiteheads, pimples, greasy skin, and, more than likely, scarring. Individuals that normally have acne have bouts of depression and anxiety, but most of them just have low self-esteem, but with the ones that have severe bouts of depression thoughts of suicide are also common because of their appearance. Someone in their family had a severe case of acne and then passed it along to their kids and so on. It is still unclear as to if having a certain diet is the cause of acne and it is also unclear if having dirty skin or sun can cause it. The areas where acne is located is where the oily glands are located which are the face, the upper part of the chest, and your back.
